The drawing will be held Saturday, December 10th in the member's lounge at 1pm. Plenty of time for that massive shopping spree!!! You do not need to be present at the raffle to win. We will contact you if you win. Only \$20 for a chance to win \$2000 and your loved ones could have the Christmas of a lifetime !!

### **LTC/FID Certifications and Other Training**

Keep an eye on the club calendar for the next Firearm Safety Classes and other proficiency classes.

So you finally got your LTC, but you are not sure where to go or what do next? You're not alone. We all started there.

For many years, the Club's resident NRA instructors have offered the Basic Home Firearms Safety Course at The Club. This is the course that qualifies individuals for a License To Carry (LTC).

But then what? How can we help you take your next steps? We're all fired up about training! As you can imagine, our members are a great resource for new shooters.

Our Club is a supportive environment where people can learn and grow in the shooting sports. That truth was strongly projected in October in terms of the various training seminars we made available at the Club. In addition to our very successful Women on Target event, The Paragon Training Group offered their concealed carry 1.0 class, which was a full day course on Saturday October 8th. This excellent training was geared to those who want to gain the knowledge, skills and attitude that will help them be more confident in their decisions to carry as well as be effective assets in their community. This class was hosted on our premier action range and gave shooters the opportunity to learn intermediate and advanced self-defense shooting techniques from expert instructors in a safe environment. Do you feel the need to upgrade your skills? Check out Paragon at [www.paragongroup.com](http://www.paragongroup.com). We will be hosting more Paragon training events at The Club in the future.

Last Sunday, Sergeant Bill Duggan of the Maynard Police Department offered a 4 hour defensive pistol course to 11 enthusiastic members. Even though the weather forced the class to our indoor range, Bill was able to put members through their paces, teaching the students much about the pluses and minuses of various gear and equipment. The class focused on sound fundamentals and safe & proper shooting and moving techniques.

The Club and our members are a great resource that prospective and existing members can call upon to grow and develop their skills. Do you want some help thinking about guns or gear? Need recommendations on group or individual training and lessons? An introduction to the shooting sports? The rifle and pistol committee can help you find answers to your questions and offer advice and recommendations on all things shooting.
